To Whom It May Concern:

It is with great pleasure that I write to recommend Yesenia Rodriguez . I have known Yesenia since August, 2018 when she joined our Tech Academy after transferring from the Engineering Academy. She is to the class a valuable member as well as to the Foshay's Technology Academy. She speaks her mind, is naturally curious, and proven to be reliable. This year, Yesenia proved to be a responsible problem solver and an effective communicator through maintaining her grade by staying in constant communication about projects and improvements through schoology.

Yesenia has also worked hard to improve her technological literacy. During her time in the Tech Academy she has created original websites using online Content Management Systems, she has created, games, digital scenes using App Lab in code.org by using the JavaScript programming language and the Scratch editor

You can see an example of Yesenia's work on her online professional digital portfolio here.

Yesenia demonstrates that she is able to manage her time wisely and achieve all of her academic responsibilities, and still have time for extracurricular activities.

Yesenia is someone I highly recommend. She has great potential and I look forward to seeing where her goals and aspirations take her.

Please feel free to contact me with any questions regarding Yesenia at 323.373.2700.

Sincerely,
Javier Bran

Lead Technology Teacher and Computer Science Instructor (Tech Academy)
